## Definitions

**Enroller:** The person who introduces you and signs you up in the ForeverGreen business.

**QV (Qualifying Volume):** The sales that qualify you to earn commissions. Each product has its own assigned QV.

**CV (Commissionable Volume):** The points on which commission are calculated. Each product has its own assigned CV. In most countries, the CV amount is the same as the QV amount, but depending on the international market, we may need to adjust the CV in order for us to offer a more friendly selling price.

**OV (Organization Volume):** In your organization each Member's QV added up together will become your OV. For example, if you have three people in your organization and each place a 100 QV order, your OV will be 300.

**Frontline / Frontline OV:** Your Personally Enrolled Members and Preferred Customers are your frontline. Frontline OV means the total QV from each of your Personally Enrolled Member's and Preferred Customer's purchases.

**Generation:** Each generation in the People's Plan is defined by a Member paid at the rank of Learning or higher.

**Rank:** Each rank is designed to help you gain more commissions and help you continue your journey of success.

**Leg/Tree:** Leg starts when you Enroll someone and they Enroll someone.

**Tree (Organization):** You connect all your legs together to form a tree (Organization).

**Week/Month:** Weeks start Tuesday midnight and end Monday midnight. Months start on the first day of the calendar month and end on the last day of the month. (US, Mountain Time Zone)

**Dynamic Compression:** Is similar to an infinity bonus, which allows you to get paid not only on your guaranteed Generations, but to the end of your organization if you hold the highest rank within your downline group.
